

# JOB OFFER

## PRODUCT MANAGEMENT SPECIALIST

Desiknio Cycles offers premium e-bikes that are identified by their minimalist design, the use of high quality and durable materials, and meticulous attention to detail.

Their compact and lightweight motorization echoes technology from the automotive industry, which is engineered to be efficient, quiet, and reliable.

Designed and manufactured in Europe, our premium-class electric bikes are a combination of the highest technology and the finest handcrafted work.

Recently, Desiknio joined forces with a strong and well-known European e-bike market player. Therefore, our company and team will be growing exponentially within the next years.

For our office in Granada, Spain, we are looking as soon as possible for a Product Management Specialist to support our production department in all relevant issues.

# JOB OFFER

## PRODUCT MANAGEMENT SPECIALIST

### YOUR TASKS

- You will analyze the market and do research on our competitors.
- You will investigate cycling trends and keep us updated about market developments.
- You will contribute in the idea generation process, in the creation of prototypes and in the product definition process.
- You will establish and maintain supplier contacts (new agreements, negotiations, first units, paper work etc.).
